A WICKED ATTACK.

Without Provocation Jim Shuler
Began Pounding John Hig-
man, Jr., in St. Joseph.

HE WAS IN THE PRESS OFFICE.

Mr. Higman Was Conversing With
Bowersox When the Man
Shuler Attacked Him.

John Higman, jr., one of the best and most widely known citizens of St. Joseph, was brutally assaulted in the office of the St. Joseph Press this morning by Bowersox's boiler-maker, James C. Shuler, and all the self-respecting people of that city are filled with great indignation.

Yesterday Bowersox printed an item stating that Mr. Higman had been arrested and fined for violating the bicycle ordinance. It appeared in the Press and of course was not so. Mr. Higman called on Bowersox to have the statement corrected and while explaining the matter to Bowersox the nurse, poet and writer, Shuler, came in and without any ceremony he shrieked:

"If this was my office I would kick you down stairs. I will anyway."

Shuler then attacked Mr. Higman and pounded him in a frightful way. Bowersox looked on and never offered to interfere. Later Shuler was arrested and his hearing set for next Tuesday before Justice Baldrey.

Two days ago two policemen were stationed near the St. Joseph stand-pipe to watch for violators of the bicycle ordinance. There is a sandy place there and it is necessary to ride on the sidewalk or dismount. It is the practice of Mr. Higman to use the sidewalk at this point and he called the attention of Mayor Starr to the fact that the ordinance ought to be changed and the mayor agreed with him. The other day when the policemen were lounging about waiting for a fee Mr. Higman rode on the walk as usual and informed the hungry officers that he would report himself and save them the bother. He was invited to explain the matter to the council and he did so last night.

In his address before the council Mr. Higman attacked the police fee system and declared it a disgrace to the city. He declared that one night officer receiving \$40 a month from the city was working in the daytime arresting people for the fees in it while the real interests of the city went neglected and the gross evils overlooked.

City Attorney O'Hara scored Mr. Higman very harshly saying that he ought to be fined \$10 and go to jail for riding on the walk mentioned.

Mr. Higman replied that he believed in fair play and if a lawyer, an editor or minister was drunk on the streets he ought to be arrested the same as any other drunkard. These remarks are what enraged the man Shuler.

The council vindicated Mr. Higman by changing the ordinance as he desired.

DRANK LEWIS LYE.

An Infant 15 Months Old Dies in
Fearful Agony.

The 15-months old baby of Mr. and Mrs. Fred Marti, living three miles east of the city on the Watervleit road, died this morning from the effects of Lewis lye which the child drank.

The deadly liquid was swallowed by the infant last night at 5:30 o'clock and the babe remained in the most agonizing pain until 11 o'clock today when death came. The liquid was taken from the cover of the can containing the lye. Mrs. Marti was engaged in cleaning fruit cans with the aid of the lye and removing the cover from a can she placed it on the table. It contained a few particles of the potash into which water was splashed making scarcely more than a teaspoonful of liquid.

While Mrs. Marti's attention was called elsewhere the baby walked to the table and taking the cover poured the contents into its stomach. Mr. and Mrs. Marti hurriedly hitched up a team and with the baby drove to the home of Mr. Marti's mother, Paw Paw avenue and Territorial street, this city, where the child was left and Dr. Ryno summoned. He found the child suffering terribly from the irritation of the liquid and from an examination of the throat decided that the liquid had reached the stomach and must prove fatal under any treatment. He advised the parents as did also Dr. Sowers that the child was beyond the reach of medical skill and would die.

The funeral of the little child will be held from the Methodist church in Coloma, August 13 at 1 o'clock in the afternoon.

IT WILL MYSTIFY YOU.

Great Entertainments to be Given at
St. Joseph.

Next Saturday and Sunday evenings manager Simons has arranged for mystifying entertainments at the Academy of Music in St. Joseph.

On these dates Frank and Lillie Vernley, the great spiritualistic mediums, will give their mystifying performances. They believe there is much in spiritualism and for the benefit of their audience they will expose the frauds so often practiced and show where the genuine performance of the mediums will be only a fraud.

THE WEATHER.

A UNION DEPOT.

One is Likely to Be Built in This
City.

The Big Four and the West Michigan railroad companies are figuring on the construction of a union depot in this city, work to begin on the same in a few weeks. An official of one of the roads said last night:

"The plans for a new union depot for the Big Four and West Michigan roads are now drawn and a few days ago they were at the general office of the St. Joseph Valley company. I understand a structure costing not to exceed \$3,000 will be built and that the St. Joseph Valley will have no interest in the building but are likely to lease space. I think the work of construction will be commenced within 30 days."

Such a comparatively cheap structure is not exactly what the citizens would like but it would be a great improvement over the present shanties used for stations. A union depot would not decrease the office force of either company.

POPULARSULKYPLOW

It Will be Manufactured in Benton
Harbor by the Ballhouse
& Struben Co.

NO DOUBT ABOUT IT NOW.

Small But Enthusiastic Meeting of
the Board of Trade Last
Evening.

A small gathering at the board of trade rooms last evening enthusiastically declared that the city would meet the proposition of the Kalamazoo firm of manufacturers, Ballhouse & Struben, and that Benton Harbor would have a new factory ready for operation September 15.

President Miller explained the proposition. The firm asked for no bonus but they would move their plant here, provided the city would furnish them free of charge the use of a factory building for one year in which time they would be able to secure or build factory exactly suited to their needs. The firm manufactures a sulky plow on which it has a large tradethroughout the west, and also a patent boiler purifier, which is better than any device of the kind before manufactured. It is also the purpose of the firm to manufacture and put on the market the Kneeland wheelbarrow. The gentlemen are thoroughly responsible and will employ about twenty men on the start. They desire to move here because of the better facilities for shipping which Benton Harbor enjoys over Kalamazoo. Inside of a year they expect to employ 100 men, but they make no promise and will only do better than they agree.

G. H. Reimer, who put his money in Benton Harbor on the strength of the location of the Buss factory, was at the meeting. He has known both of the men for years and assured the board of trade that they were allright. "They will bring with them no help from Kalamazoo," said Mr. Reimer, "but they will give labor to the unemployed population of this city."

A committee was appointed consisting of R. A. Kneeland, G. H. Reimer and C. J. Brown to look up a suitable factory. It was thought that the Richards planing mill might be secured. Mr. Richards was at the meeting but was not ready to make any proposition but promised to give the committee some definite idea of what he would do this afternoon. If no suitable building can be rented it is possible that the board of trade will erect a factory building for the purpose, the expense of lot and factory being estimated at not over \$2,500.

President Miller and C. J. Brown were appointed a soliciting committee.

RESOLUTION TABLED.

Bell Company's Request at St. Joseph Ignored.

The Bell telephone company received another blow from the St. Joseph city council last night. The company had a resolution before the council that permission be granted them to construct poles on certain streets in the city. The resolution was tabled without any ceremony.

The board of public works was instructed to secure plans and an estimate of the cost of the extension of the sewer to the second district.

C. J. PECK

107 E. MAIN ST.,
BENTON HARBOR, MICH.

HE IS UNDER ARREST.

Charles V. B. Scott Said to be Wanted in the East for Grand Larceny.

IS STYLED A POLISHED THIEF.

Three Warrants are in the Hands of a Providence, R. I., Detective—Takes His Arrest Calmly.

Fred I. Snow, alias Charles V. B. Scott, who came here recently from Lowell, Mass., and for three weeks has been employed in soliciting funds for the local Young Men's Christian association, was arrested last night upon information from Chief Detective P. Parker, of Providence, R. I., that Snow was wanted there for grand larceny.

Snow has passed under the name of Charles V. B. Scott since he arrived in Benton Harbor, and when arrested by Officer Crawford was occupying a chair in the office of Secretary Arford in the Y. M. C. A. rooms. He accompanied the officer without uttering any remonstrance and was placed behind the bars of the city jail. Later he was removed to the county prison where he will remain until requisition papers are secured and he can be returned to Providence.

The communication ordering Snow's arrest was addressed to Chief of Police Sterns and reached here yesterday afternoon. It was signed by P. Parker, chief detective of Providence, R. I., and read as follows:

"I hold three warrants for Fred I. Snow for the larceny of about \$500 worth of goods from his brother, Edgar D. Snow, also \$100 worth from Louise Clauson on June 23, 1897. He left Providence the same day with all of the goods, which consisted of a very valuable watch, several pieces of jewelry, all kinds of wearing apparel, two trunks, a valise and a number of other articles. Snow is 22 years old, about 5 feet, 5 inches tall, smooth face when he left here, weighs about 140 pounds and has black hair. He is a very polished thief, is a member of the Y. M. C. A. at Providence, R. I. and Lowell, Mass. I am informed that he has joined the same organization at Benton Harbor. He is a notorious thief and has served time for grand larceny. If you find him arrest him and notify me by wire at my expense. Secure all property in his possession as he no doubt has a good portion of the stolen property with him. Enclosed you will find a photograph taken of him a year ago."

With the above letter and photograph in his possession Officer Crawford entered the Y. M. C. A. parlors last evening. He saw a man whom the photograph resembled sitting in the secretary's office, his chair tipped back, his feet resting on the table, his coat off and a book in his hands. The only dissimilarity between the photograph and the original was a moustache which Snow had removed since the picture was taken. There could be no mistake. The face in the photograph was the face the officer saw before him, and without any ceremony the officer advised Snow that he was under arrest.

"I have been expecting it and I'll accompany you. There's no need of any demonstration."

Speaking the above Snow arose, drew his coat on, and with the book he was reading still in his hands, followed the officer. Going down the stairway to the street he whistled, sang softly and tried to appear indifferent, but the expression of abject despair that his features bore was not lost even to those who witnessed his miserable assumption of unconcern.

By the officer's side the trembling boy walked to the city jail. Arriving there he was pushed ahead of his escort and a second later was behind the bars. His only companion in the jail was a maudlin tramp whose mutterings came from the recesses of a remote cell. They fell with harshness upon the ears of the refined gentleman prisoner, but he uttered no complaint. He maintained a perfect stolidity of countenance and if his emotion overcame his will force and asserted itself in tears it was after the officer left and the boy was alone.

A moment after the great iron door had swung on its hinges, and separated Snow from the friends he had so numerous gathered about him during the short time he had lived here, a NEWS reporter called and asked for an explanation of the accusations against him. At first he professed to be in ignorance of the cause of his arrest and later he predicted that the trouble would all be cleared up. He

could not be induced to talk about the charges against him.

About 7 o'clock Officer Crawford took Snow over to the county jail. He had entirely recovered his usual equanimity and insisted upon having his supper. Upon reaching the jail he was given a seat at the sheriff's table, the family having eaten their supper. He relished his food and ate heartily. After supper he was locked up in one of the juvenile wards. This morning he refused his breakfast, saying he wasn't hungry. A NEWS representative called on him in his cell this morning. His face had brightened up and he greeted the reporter with a happy "good morning." Asked to explain the accusations against him he said: "The charge of larceny against me is unfounded. I have not robbed my brother nor Mrs. Clauson. I can't understand why such a complaint should be made. I had trouble in the east but it was not of such a sort. While I was employed by the Lowell, Mass., association I got to speculating and used \$80 of the association's funds, but I went directly to the head officers and explained the whole affair and made an arrangement with the head officer that obligated me to him for accounting for the misappropriated funds. This other charge is all a mystery. I can't explain it. It will be cleared up though and I will come back to Benton Harbor and re-establish my lost reputation. I had many friends in that city didn't I, and if I prove that I am not the criminal I am represented to be they will receive me back won't they?"

Asked whether he would return to Rhode Island without requisition papers he said: "I don't know. It depends on the advice of my attorney, A. P. Cady."

The officers here have wired the news of his arrest to the Providence officers and expect instructions from them any moment.

Snow has been boarding at the residence of W. A. Prescott, and with a view to recovering the property alleged to have been stolen by him Officer Crawford went to his boarding house last night. All the property to be found was a dress suit, a few toilet articles and some worn out clothing. He had no trunks and no jewelry except a watch chain and a cheap ring. If he stole the property the Providence officer claims he did he disposed of it before he reached Benton Harbor. Since coming here he made a trip to Chicago which gave him an opportunity to dispose of the jewelry. When arrested he had only a silver dollar in his pocket.

Snow came here a month ago and introduced himself as Charles V. B. Scott. His bearing was that of a gentleman. Polished in speech and in manners he soon made many friends and after being here a week offered his services as solicitor of funds to the directors of the Young Men's Christian association. He represented that he had been connected in the same capacity with the association at Lowell, Mass., and had been very successful. He was finally engaged for that work and gave excellent satisfaction. He showed himself possessed of rare ability as a solicitor and gathered in a large amount of funds. In the meantime the Y. M. C. A. officers made inquiries concerning him of the secretary of the Lowell, Mass., association and were advised that a man named Snow, answering Scott's description had been a member of that association but in no way had he been connected with its finances; also that Snow was wanted for a crime at Providence. Upon this information Snow was discharged last Saturday. He insisted that he had been greatly misrepresented and in time would be able to explain all. He pleaded earnestly that he be given employment and an opportunity to live down the ugly stories about him. Monday he was given his position again and until today continued in the service of the association.

To those acquainted with Snow it is hard to believe that he is the hardened criminal the Providence detective represents him to be. He is intelligent, has no vicious habits known to his acquaintances here, shows good breeding and is kind and cordial in his manner. Among the young people he was immensely popular. His position with the Y. M. C. A. gave him influence among the best families of the city, and his arrest has caused a sensation.

"ECONOMIC SUICIDE."

Bellamy's New Book "Equality" a Revolutionary Work.

It is very safe to say that no such a profoundly practical and revolutionary study of our industrial situation, and of the wrong basis of our political economy has ever been written, as the new work of the young man who nine years ago stirred the world by his "visionary story," "Looking Backward."

As his first work was a story and necessarily weakened by an ideal presentation of his theme, so this book—destined to upset the very mathematical basis on which our whole civilization rests, is most intensely practical, and will appeal strongest to those who reject theories and wish to see figures and facts.

It will be quite startling to the conservatives who have sneered at the "visionary Bellamy" to follow his scalpel, as he cuts to the very marrow of our false and rotten economic system, and shows beyond a possibility of retort, that our whole competitive, capitalistic system essentially violates the multiplication table, and is as impossible of continuance, as is the career of the business man who figures profits on the basis of 2x2 equal 5 and expenses on the unscientific basis of 2x2 equal 3.

It takes no study or talent to scoff at any mere theory, but the scholar will have hardhood indeed who reads his longest and strongest chapter entitled "Economic Suicide" to attempt to disprove his mathematical demonstration that our present system is so grossly unmathematical as to be self destroying and if not changed will totally disrupt civilization itself.

But the greatest value of the work is not in so unanswerably showing the wrong of our present civilization, (any one can see that a system that produces a few thousand millionaire profligates and millions of tramps, city slums with millions of neglected children, strikes and all the frightful conditions of today is a system of essential paganism) but the immeasurable value of the work is in the constructive plans for a peaceful evolution of the forces now at work, to a better and a really christian civilization, with but little or no jar in the transition.

It is always easy to tear down, but the work of genius is to show how to build up in a natural and evolutionary manner and this Bellamy has done.

The conclusions are essentially the same as those of the other noted book, "President John Smith" that the last century has developed a "Mechanical Age" and a division of labor, which has changed conditions more than before had been done in two thousand years.

And political economy and industrial conditions must be changed or we shall have created a geni that will destroy the progress of the race.

If this work does not move to a mighty effort to reform the conditions of the present then we say, let dynamite do its work, and out of a reign of anarchy we will hope for the growth of a better order of society than the present.

ICE cream social for benefit of St. John's church, Morton Hill, this evening.

CHIEF of Police Sterns was unable to be on duty yesterday on account of illness.

THE Ladies' Aid society of the church of God will meet at Mrs. Bush's, Fourth street, Friday, to work for her.

THERE will be a special meeting of the L. O. T. M. Friday afternoon at 2 o'clock for drill. A full attendance is desired.

JACOB Burridge says that he has lost 100 chickens as the result of thieving tramps. He lives near the Britain avenue viaduct.

TICKET No. 49 drew the silk cushion given away by the Ladies' Aid society of the church of God. An unknown lady residing in the country was the lucky person.

AN excursion of 1,500 people from near Indianapolis arrived early this afternoon over the Big Four. A small excursion from Wabash also came in this morning.

THE Evening News boys' band will play at the social this evening at the residence of Patrick Yore on Morton Hill. Boys will meet at THE NEWS office at 7 o'clock.

THE amount of the mortgage on the dwelling houses constructed for employees of the Buss factory was \$3,500 and not \$5,500 as THE NEWS stated through a typographical error yesterday.

C. J. BURNETT sold for the Capital Investment and loan association of Lansing last night lot 22, block 4, of the Benton Harbor improvement company's sixth addition to Miles E. Leighton for \$750.

A TRAVELING man visited C. J. Brown's grocery store today and asked one of the salesmen: "Are you the O'Rourke that is Alaska smitten?" "Yes sir, but where did you read about it?" "In the Toledo Blade."

THE sick and accident policy of Anson Lewis, the old gentleman who suffered a paralytic stroke, lapsed in the Phoenix association thirty days ago. Mr. Lewis had paid for several months and just when he needed the insurance he let the policy become inoperative.

MRS. Rounds, president of the Illinois W. C. T. U., will speak at the First M. E. church Sunday night on "The Ideal Citizen." Monday afternoon at 2 o'clock she will address the W. C. T. U. at the Congregational church. Mrs. Rounds is a sister-in-law of Captain B. F. Rounds of this city.

THE horse blanket found in possession of two men last Sunday who were arrested and later discharged for want of evidence, is owned by Dwight Scott, of Royalton township. It will be returned to him upon payment of the board of the two men suspected of having stolen the same.

THE Phoenix accident and sick benefit association is getting out a new form of policy which is bound to add to the popularity of the association. Any member holding a policy for five years and not receiving a sick or accident benefit in that time becomes a sharer in the profits of the company for that period.

THE West Michigan railway sold 16 tickets for the Niagara Falls excursion this morning. Included in the list of passengers from this city was Mrs. O. S. Chapman, W. D. Downey, N. D. Hall, Mrs. A. L. Wilcox and the Misses Lillian and Hettie Dairymple. Mrs. Wilcox will visit her grand-parents at Norwichville, Ontario.

Chicago Cyclists Will Arrive Here on the Louisville.

The Chicago wheelmen, who will spend next Sunday in this city have chartered the Graham & Morton steamer City of Louisville and will leave Chicago Saturday night. They will have complete possession of the boat. All passengers not friends or sweethearts of the bicyclists will be excluded.

Arriving here the cyclists will hold a field meeting which will possess some very clever features.

The party will include 400 wheelmen.

MONDAY NIGHT

Will Probably Witness the Completion of the St. Joseph Valley.

The Milwaukee, Benton Harbor & Columbus railway company will complete its tracks next Monday providing the rails arrive as fast as they can be laid. Four and one-half miles of track remained to be completed when the construction gang went to work this morning. Today's operations will leave three and one-half miles to complete. If the company is disappointed in the arrival of rails there is no predicting when the last rail will be laid.

SNOW IS UNDECIDED.

Refuses to Express Himself Concerning Requisition Papers.

This morning Officer Crawford received a message by wire from Detective Parker, of Providence, R. I., instructing him to ascertain if Fred I. Snow, alias Charles V. B. Scott, arrested last night, would come to Providence without requisition papers.

Officer Crawford replied that Snow declined to say what he would do, and asked the Providence detective if he should hold Snow under a warrant alleging him to be a fugitive from justice.

Full particulars of Snow's arrest appear on another page.

ST. JOE BARBER ARRESTED.

He Kept His Shop Open Last Sunday.

On a warrant sworn out before Justice Cady by S. C. Brown this morning Constable Sinsbaugh went over to St. Joseph and arrested Louis Bell, a colored barber of that city, for keeping his shop open last Sunday, thus violating the Sunday law.

The barbers of the two cities have an agreement to close their shops on Sunday but last Sunday Bell did "maliciously and feloniously" shave a man and for that crime he was called to answer.

The hearing was at Justice Cady's court this afternoon.

Edward Jeslain is having an examination before Justice Graves this afternoon on the charge of murderously assaulting Police Officer O'Brien.

GOLDEN ROD FETE.

To be Held at Pottawatomie Park.

A coterie of Chicago guests summering at Pottawatomie park have persuaded the proprietor to give a unique lawn fete Saturday evening this week. The occasion (a la pink tea) will be distinctly a golden rod feature. The dance hall will be profusely decorated with the national flower, the ladies wearing it in their hair and the gentlemen as boutonnières.

The fine old beech trees in the park will be hung with Japanese lanterns. Dancing will begin at 8 o'clock.

A large party of bicyclists is expected on the Chicago boats who will spend Sunday at the park. Many summer guests will also drive over from Paw Paw lake and from St. Joseph and Benton Harbor, as well as residents of the twin cities. The harvest moon and good roads since the recent storm will help to make the function a success. Ample arrangements have been made for the entertainment of the guests over Sunday and as long as they wish to remain.

The Sunday exercises of the school of philosophy and religion will be conducted by well-known Chicago and Michigan speakers, among them being Mr. Sheridan Fritz, James G. Stevenson, Mrs. Helen A. Musser and A. Stewart Appleton.

Among the recent arrivals at Pottawatomie park are James G. Stevenson, Miss Annie Stevenson, Miss Fannie Cannon, Mr. and Mrs. Adams, Mr. and Mrs. A. Stewart Appleton and daughter, all of Chicago.

White Dome Geyser Yellowstone Park.

A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immaculate White Dome. As one approaches, he almost expects to be challenged and asked for a countersign. If such a challenge is given it is in a curious fashion, in the form of a geyser eruption, for the White Dome is a geyser. It is not unlike the Castle Geyser, or the White Pyramid of the Upper Geyser Basin. The geyser is a very white, rather dome-shaped mound, built up from the secretions of its waters, and is the most conspicuous feature of the locality. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. Its eruptions come at intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet.

BRADLEY'S RETREAT.

Strike "General" Asks Trans-
portation from the Ditches
in Front of Coffeen.

HAS A TALK WITH THE MAYOR.

Who Declines to Let Him Past the Dead
Line While He Wears a Military Title
or Heads a Raising Party—Mayor of
Decatur, Ill., Prepares for a Raid—Other
Illinois Strike Items—News from the
Eastern Center of Trouble.

Coffeen, Ill., Aug. 12.—General Bradley ventured to the "dead line" yesterday afternoon at 4 o'clock. He was stopped by the guards at the point of their guns. He asked for Receiver Mills, who was sent for. The receiver sent back word he would have no dealings with Bradley and refused to meet the strike leader. Bradley then asked for the mayor. Traynor was brought from his home to the "dead line," where the "general" asked permission to enter Coffeen. "You and your men cannot step a foot into Coffeen," replied Traynor. "As long as you are 'General' Bradley you must keep out. When you become 'Mr.' Bradley you may not only come into town, but you will be welcome at my house; but you must first resign from command of your army and dismiss your men." Bradley did not know at first what to do. Then he asked the receiver if he would give his army transportation to Sorrento, twelve miles away. Mills said he would send them down to the first freight passing by the camp.

Decatur's Mayor Proclaims.
Decatur, Ill., Aug. 12.—Mayor Benjamin Z. Taylor, at 11 o'clock last night, issued a proclamation referring to the reports that miners were said to be coming from Lincoln, and calling on citizens to remain at their homes and keep the streets clear. All marching in bodies of any kind is strictly prohibited. Not more than three persons are to gather in one place in the streets. All citizens are advised to be in readiness to assist in maintaining order. Sheriff Nicholson has notified 100 deputies to report at the jail for duty. The coal company has decided to close the Niantic shaft, but will keep its men at work in Decatur.

Pleasant Plains Men Brought Out.
Springfield, Ill., Aug. 12.—The Petersburg miners marched yesterday to Pleasant Plains, where the men have been working since the strike began, and after an interview the Pleasant Plains miners agreed to go out as soon as they could timber up the mine. About twenty men are working at the Ashland mine, and the Tallula miners will probably visit them and endeavor to get them to quit work.

Scientists Discuss Strikes.
Detroit, Aug. 12.—In the economic section of the American Association for the Advancement of Science yesterday Charles Porter Hart read a paper on "Labor Restrictions as Potent Factors in Social Evolution." He dealt particularly with the condition of the striking miners, advocating state supervision of wages and output by means of a legislative commission. A general discussion followed in which it was suggested that the difficulty could be remedied by the establishment of a minimum wage by the government by state ownership of mines.

Miners Marching in Illinois.
Springfield, Ill., Aug. 12.—A State Register special from Lincoln says the miners of that city left at 1:30 o'clock yesterday afternoon for Mount Pulaski, where they arrived last night, and will endeavor to get the men working there to strike. From there they go to Niantic, where the miners are still at work, and from there to Decatur, which city they expect to reach this morning. They are equipped with baggage-wagons and an abundance of food and some money, the provisions and cash having been donated by Lincoln business men. Captain Patrick Hardin is in command, and the little army is headed by rifle, drum and flag.

STRIKERS STRIKE AT SPRING HILL.

Mine Is Getting Out Too Much Coal—
Women and Children Bear the Brunt.

Pittsburg, Aug. 12.—The fact just made public that the men at work in the Spring Hill mine, of Dempster, Boyd & Co., are getting 69 cents has further complicated the strike situation. This rate has been paid since July 16. There are ninety-nine men at work in this mine and 200 mine wagons are mined every day. This is dumped into the tenders of the locomotives on the Pennsylvania railroad. An effort will be made by the strikers to get the miners out. The latest movement of the strikers indicates that the miners' leaders have abandoned all hope of drawing the coke region into the strike and have adopted a plan of using the cokers to assist the strikers in a more profitable way. Committees have been in the coke region all week collecting money and provisions. The headquarters of the district offices of the United Mine Workers in this city are still besieged with piteous appeals for aid from the starving women and children of the striking miners.

More than \$1,000 worth of provisions have been distributed during the last two days and the requests for help are away in excess of the means to respond. Around the Bunola mine and along the Wheeling division of the Baltimore and Ohio railroad the suffering seems to be worst. In many homes there seems to be nothing but dry bread to eat, and in some cases not even this. Arrangements are being made for a big labor meeting in McKeesport Saturday evening, which all the striking miners in the Turtle Creek and Monongahela valleys are expected to attend. The meeting will be in charge of the striking puddlers' committee. The speakers engaged are Samuel P. Gompers, president of the American Federation of Labor; M. D. Ratcliff, president of the United Mine Workers, and M. M. Garland, president of the Amalgamated Association. A parade will precede the meeting.

In spite of the announcement by the company that 255 men were at work in the Spring Creek mine only 100 have been reported at the mine. The rest are out of the mine and are being sent to the

THAT WEST VIRGINIA INJUNCTION.

Does Can Walk All Over That State If He
Keeps Off Company "Grass."

Parkersburg, W. Va., Aug. 12.—The text of the famous injunction granted by Judge Jackson does not warrant the remarks that certain people have been making about it. The injunction was granted to the Monongah Coal and Coke company. The scope of the order has been very much misunderstood, owing to the omission from the various summaries telegraphed to the newspapers of the important qualifying expressions "unlawfully" and "upon the property of the company." For instance, in the second paragraph it says: "Restraining and inhibiting the defendants and all others associated or connected with them from in any wise interfering with the management, operation or conducting of said mines by their owners or those operating them, either by menaces, threats or any character of intimidation," etc.

In the fourth paragraph the defendants are further "restrained from assembling in the paths, approaches and roads upon said property leading to and from their homes and residences to the mines, along which the employees of the Monongah Coal and Coke company are compelled to travel to get to them," etc. Further along the order says: "The purpose and object of this restraining order is to prevent all unlawful combinations and conspiracies and to restrain all the defendants engaged in the promotion of such unlawful combinations and conspiracies from entering upon the property of the Monongah Coal and Coke company described in this order," etc. The labor leaders are at liberty to go all over the state except upon the property of the company.

Becoming Unionists Under Pressure.
Ishpeming, Mich., Aug. 12.—The leaders of the Mine Workers' union reports that they are getting a lot of non-unionists in line. It is likely the membership list of the organization will be increased considerably more than was expected before the end of the two weeks allowed for them to come in, as the men are joining the union to avoid a strike if possible. The business men of the two cities are trying to induce the men to join the union, but they are doing this in a quiet way.

Will Not Be a Great Sympathy Strike.
Columbus, O., Aug. 12.—The representative of the Associated Press has a statement from high and reliable authority that there will not be any strike in sympathy with the miners. If, says this authority, the strike cannot be won on the present plan, that will close the incident so far as labor organizations are concerned at present.

Very Poor Living for Strikers.
Brazil, Ind., Aug. 12.—The miners executive board met here yesterday and gave out the report that there were 7,187 persons in the mining camps of this district that were in actual need of food. The largest distribution given yet has not exceeded 7 cents per capita.

Bays 20,000,000 Feet of Lumber.
Marquette, Wis., Aug. 12.—Arrangements have about been completed whereby the present season's cut of the Spalding Lumber company at Cedar river goes to the John O'Brien Lumber company, of Chicago. The amount will be fully 20,000,000 feet and the consideration is in the neighborhood of \$200,000 or more.

FARMING IN THE SOUTH.

NO DROUGHTS, GENIAL CLIMATE AND AVAILABLE SECTIONS ESPECIALLY ADAPTED TO SETTLEMENT BY NORTHERN FARMERS.

Almost every variety of grains and grasses grown in the North can be successfully grown in the South, but the crops that give best results for the money invested and labor expended are fruits and vegetables. Cotton is no longer King in the South. This wonderful change may possibly have been brought about by the large number of Northern farmers that have located at many points on the Illinois Central and the Yazoo & Mississippi Valley railroads in the States of Kentucky, Tennessee, Mississippi and Louisiana, and carried with them the

PRACTICAL IDEAS OF
DIVERSIFIED FARMING

as practiced in the North. No country in America can compare with southern Mississippi and northern Louisiana for the cultivation of fruits and vegetables, and the time is not far distant when this locality will supply the early markets of the North and Northwest. All who contemplate a change of location should investigate this favored section, to aid in which, send for a free copy of the

A HARD FIGHT.

It Was Pulled Off at St. Joseph Last Night.

A finish prize fight between Tom Silverthorn and Johnson, the Michigan pugilist, was witnessed by 200 local sports in the Academy of Music in St. Joseph last night. Johnson stood up before the massive Chicago pugilist for two rounds and at the commencement of the third received a terrific blow on his wind that sent him to the ropes in a heap. He did not rise before time was called and the purse of \$25 and gate receipts, the latter amounting to over \$100, went to Silverthorn.

The exhibition was advertised as a four-round contest, but knowing sports paid their \$1 at the door with the assurance that they would see a finish fight. It was known that Johnson was no match for Silverthorn and it was expected that he would go down under his fearful punishment before the fourth round was reached. Johnson weighed 158 pounds and Silverthorn 180, making an uneven match in size. Johnson's friends claim that he has not been in training; that he came fresh from the berry-fields and was not in a condition to fight, while Silverthorn has been in constant training. The first round witnessed some heavy fighting, but it could be easily seen that Silverthorn was the most powerful man of the two, although his science was not to compare with Johnson's. The second round practically decided the contest. Johnson was terribly beaten and no one expected to see him come up for the third round. He exhibited a marvelous amount of nerve and a prize-fighter's attitude all the way through.

A WIFE'S UNFAITHFULNESS.

Meets Her Lover in St. Joseph and Her Husband Kills Her.

Charles Clifford killed his wife and then committed suicide early yesterday morning at their home, 302 Rush street, Chicago. Jealousy is supposed to have been the cause.

The police took possession of the bodies, and search was begun for something that would throw light upon the motive of the crime. In the pocket of Clifford's trousers were found two notes addressed to Mrs. Clifford and signed by Gust A. Penner, a recently appointed police officer residing at 345 Grand avenue. They were on paper bearing the heading of the police department, bore dates of Aug. 3 and Aug. 4, and apparently had been received by Mrs. Clifford while on a trip to St. Joseph, Mich., last week. They were as follows:

"Chicago, August 3—Mrs. L. M. Clifford, 119 State street, St. Joseph, Mich.: I will leave here tomorrow (Wednesday) evening by the night boat at 11:30 o'clock for St. Joseph. Hoping you are well and having a good time, I remain respectfully yours,

"GUST A. PENNER."

"Chicago, August 4—Mrs. L. M. Clifford, St. Joseph, Mich.: Impossible to leave on tonight's boat, but will leave on Thursday (tomorrow) morning boat at 9:30 o'clock. Meet me and bring your lady friends with you.

Yours, etc.,

GUS."

While in St. Joseph Mrs. Clifford stopped at the residence of Milo Clark on State street.

White Dome Geyser Yellowstone Park.

"A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immaculate White Dome. As one approaches, he almost expects to be challenged and asked for a countersign. If such a challenge is given it is in a curious fashion, in the form of a geyser eruption, for the White Dome is a geyser. It is not unlike the Castle Geyser, or the White Pyramid of the Upper Geyser Basin. The geyser is a very white, rather dome-shaped mound, built up from the secretions of its waters, and is the most conspicuous feature of the locality. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. Its eruptions come at intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet."

Send six cents in stamps to C. H. A. B. Co., Gen'l. Pass. Agent, Northern Pacific Railway, St. Paul, Minn., for "White Dome" from which the geyser takes its name.

The fashionable rage for white this summer has extended to shoes and stockings as well as belts. Shoes of white kid are worn with light costumes, and white kid belts are favorites. It is unnecessary to say that these are only desirable when they are immaculately clean. Shoes of gray, corn and brown linen are also seen and are very cool for hot weather.

Buttons are still much used for trimming, especially those made of cut steel or

paste. The steel ones accompany all sorts of costumes, but the jeweled ones are only employed for very nice gowns. Enamelled buttons are largely used on light summer toilets.

White will continue to be fashionable all summer and into the autumn. It is becoming to nearly everybody and can be worn by everybody in some form or other. Where it does not compose the entire costume it may be used for the trimmings or accessories, a white hat and parasol accompanying well any gown and white lace or gauze decorations being equally adaptable.

The picture illustrates a dinner bodice of plaited straw mousseline de sole. It is made over a straw silk lining and has a deep yoke of straw mousseline de sole, embroidered with pink and red flowers. A double frill of straw mousseline de sole falls below the yoke and passes up the left side, which is ornamented with a bretelle of red velvet ribbon and bows of straw mousseline de sole, fastened by paste buckles. The collar and belt are of red velvet, and the close, shirred sleeves of straw mousseline have double plaited caps of the same material.
